The national Safety Council of Australia (NSCA) is one of Australia's leading work, Health and Safety training providers. The NSCA has over 88 years of Work, Health and Safety Training and Risk management experience. They can provide a range of training options, public, onsite or online, as well as tailored emergency management planning to ensure healthier and safer workplaces.

Training courses include:

WHS qualifications and nationally recognised training courses – Certificate IV and Diploma of WHS, fire safety, first aid, confined space, height safety and breathing apparatus.

WHS/OHS Regulator Approved Training – commonwealth and State based Health and Safety Representative (HSR) training

High Risk work Licenses Training – White card training, fork lift and elevated work platform training.

Emergency Response Training – specialised emergency response training for effective planning, response and recovery from emergencies.
