

# DEFEND AGAINST DENGUE

Make sure your rainwater tank is properly screened and regularly check around the home for stagnant water in:

-  Buckets
-  Old tyres without rims
-  Tarpaulins  
and black plastic
-  Pot plant bases
-  Vases
-  Boats
-  Tin cans and  
plastic containers
-  Roof guttering
-  Birdbaths
-  Containers with  
plant cuttings
-  Drain sumps
-  Fallen palm fronds
-  Coconut shells

Thank you for doing your bit  
to prevent dengue
